

Defoamer M

Product Description

A cost-effective, silicone-free tankside defoamer for water diluted coolants and metalworking fluids. This unique synthetic fluid migrates to the surface and disrupts the foam bubble interface. Defoamer M slowly evaporates and therefore will not impair cleaning or paint systems.

Typical Properties

Appearance Clear colorless oily liquid
Density 6.6 lbs/gallon
Flash Point >177° F

Application

Tankside defoamer

Use Directions

Supplied ready to use. Add 4-8 ounces of Defoamer M per 100 gallons of coolant (0.03 – 0.06%).

Safety and Handling

Keep away from open flames and sparks. Avoid contact with eyes and prolonged contact with the skin. Wash thoroughly after handling. Minimum contact with this and all chemicals is a good policy to follow along with reading the Material Safety Data Sheet.

Storage

Indoor storage preferred. First in first out stock rotation is recommended.

Container Size

5 gallon pails, 55 gallon drums and 330 gallon totes.
